Satellite Domain Labor Categories

Category 1: Scientific Services.
Includes (but are not limited to) Astronomy, Atmospheric Sciences, Chemistry, Climatology, Environmental, Geology, Materials Science, Meteorology, Oceanography, Physics, and Space Applications.

Scientific Services Subcategories
Level 1: Minimum of four years of relevant experience, with up to eight years total relevant experience. Level 2: Minimum of eight years of relevant experience, with up to sixteen years total relevant experience.
Level 3: Minimum of sixteen years of relevant experience, with up to twenty-five years total relevant experience.
Level 4: Minimum of twenty-five years of relevant experience.

Category 2: Engineering Services.
Includes (but are not limited to) Electrical, Chemical, Electronics, Equipment, General, Materials, and Mechanical.

Engineering Services Subcategories
Level 1: Minimum of four years of relevant experience, with up to eight years total relevant experience. Level 2: Minimum of eight years of relevant experience, with up to sixteen years total relevant experience.
Level 3: Minimum of sixteen years of relevant experience, with up to twenty-five years total relevant experience.
Level 4: Minimum of twenty-five years of relevant experience.

Category 3: Analytical Services.
Includes (but not limited to) Computer Science, Mathematics, Operations Research, and Statistics.

Analytical Services Subcategories
Level 1: Minimum of four years of relevant experience, with up to eight years total relevant experience. Level 2: Minimum of eight years of relevant experience, with up to sixteen years total relevant experience.
Level 3: Minimum of sixteen years of relevant experience, with up to twenty-five years total relevant experience.
Level 4: Minimum of twenty-five years of relevant experience.

Category 4: Program Operations Services.
Includes (but not limited to) Budget Analysis, Education and Training, Financial Management, International Cooperation, Management and Program Analysis, Program Management, and Technical Writing and Editing.

Program Operations Services Subcategories
Level 1: Minimum of four years of relevant experience, with up to eight years total relevant experience. Level 2: Minimum of eight years of relevant experience, with up to sixteen years total relevant experience.
Level 3: Minimum of sixteen years of relevant experience, with up to twenty-five years total relevant experience.
Level 4: Minimum of twenty-five years of relevant experience.

Category 5: Scientific Information Services.
Includes (but not limited to) Data Collection, Data Processing, Image Analysis, Information Systems, Quality Control Inspection, Scientific Applications Programing, Scientific Systems Analysis, and Web Designing.

Scientific Information Services Subcategories
Level 1: Minimum of four years of relevant experience, with up to eight years total relevant experience. Level 2: Minimum of eight years of relevant experience, with up to sixteen years total relevant experience.
Level 3: Minimum of sixteen years of relevant experience, with up to twenty-five years total relevant experience.
Level 4: Minimum of twenty-five years of relevant experience.

Note: Advanced degrees from an accredited institution and/or professional credentials from a recognized entity may be cumulatively tallied and substituted for experience. Masters and associates degrees are equivalent to two years of experience; bachelors and doctoral degrees are equivalent to four years of experience. Requirements for specialized degrees, credentials, and experience will be specified at the task order level.
